Latest news

HU1DL El Salvador –update

Everything is well prepared. We are ready! Our flights are departing on January 29th from Berlin. We will arrive in our booked beach-house late on the 29th. All our equipment will be with us during the flights, so hopefully have not to wait for any late freight. The team is very thankful to our early sponsors. They helped us to minimize the costs for over-sized baggage, license fees, transfers, rental costs and other costs for other ham related items. <https://hu1dl.mydx.de/>

VP9PJ South Orkney Islands -update

Landing and camping at South Orkney requires permission from several government agencies. This multi step process takes months to complete. We recently received our final approval, the "Antarctic Conservation Act Permit" from the National Science Foundation. Other agencies in the process were: the US Department of State and the Environmental Protection Agency. We appreciate the cooperation and assistance we received from these agencies to complete and submit the detailed applications and other required documentation. <https://dx-world.net/vp8pj-south-orkney-islands-dxpedition/>

W8S Swains Island –update

The preparations are part of the fun too! An amazing load of work is done by all team members. Antennas, hardware, software, the camp set up, medical well-being, transportation, satellite connections, inter-camp communication, operating schedules, vaccinations to name just a few. The European members will depart from Amsterdam and Frankfurt on Saturday 7 March. Flying through Singapore, New Zealand and Samoa to their neighbouring islands – American Samoa. Our American members will depart the same weekend to meet up in Pago Pago. <https://dx-world.net/w8s-swains-island/>
