### **GB0NHS – Calling UK stations**

The UK licensing regulator (Ofcom) has given approval for operators around the UK to use GB0NHS from within the comfort of their own shacks. Get in touch with Col MM0NDX if you'd like to run this special call with immediate effect.

### **Support against COVID-19, by JL1KBS**

Dear Amateur Radio operators using CW mode.

Why don't we send a support message for the fight against COVID-19?

All in favour, please add "OCV" or "OCCV" standing for 'Overcome the Corona Virus' at the end of CW transmissions.

Please share this post if you agree!

Thanks de JL1KBS.

### **Stay@home Radio – Stay At Home Award**

In the world-wide amateur radio community, social distancing is not an issue. The ham radio network operates by radio waves with signals flying high and wide, across all borders near and far. Amateur radio operators are well-known as communicators during the happy days, but also during times of crisis. Even if physically locked down, the world is wide open for them. They are encouraged to communicate, keeping their channels clear and their minds and skills sharp for global messaging if needed. While they now extend the physical distance between friends, at the same time they grow closer in their social distance – their minds and hearts.

The Finnish Amateur Radio League (SRAL) with the support of the Finnish Communication Agency (TRAFICOM) are working together to increase awareness and promote the normal orders of each society during this unfortunate period. To do so, the three-million strong amateur radio community is encouraged to stay in touch and keep up their global network.

### **5H3DX Tanzania –update by Charles NK80**

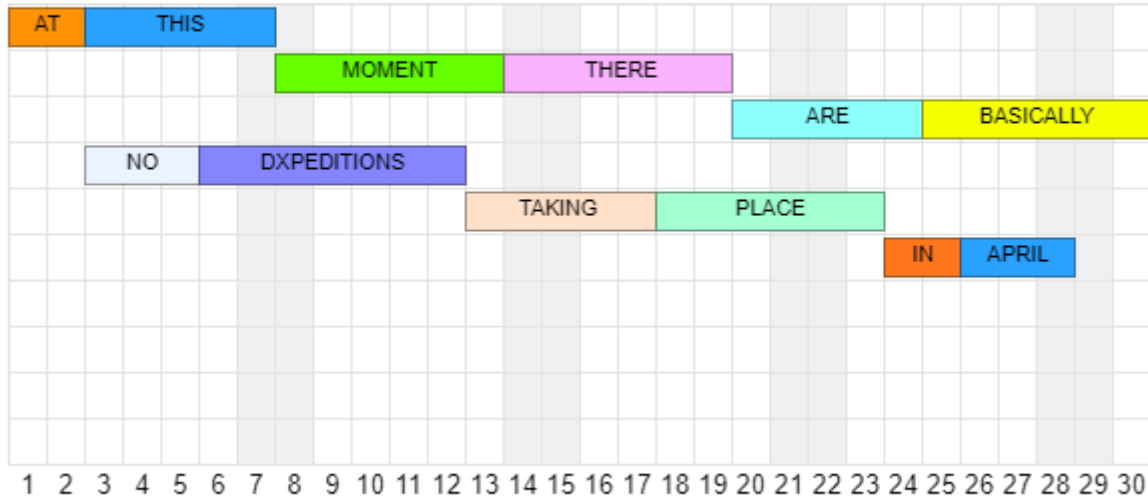

COVID-19 is the buzz word here. We have not had a large outbreak, and the government has done an excellent job of containing the index case. What it means for me is that I will be staying. I believe there is more good to be done by remaining in Tanzania, especially since our usual caretakers are prevented from traveling at this time. I also think I am safer in the long run.

As of 2020-03-21, my KX2 has ceased to function properly. No power out on any bands except 20 and 80m. I have no idea what went wrong. It was working earlier in the day, then not working. That means my digital station is now off the air. I did add about 600 contacts on FT-8, but it is something of a production to re-configure the KX3 for digital.

**ZL, NEW ZEALAND** At the suggestion of Paul, ZL4TT, we applied to Radio Spectrum Management for, and have been granted, approval to treat the COVID-19 lockdown period as a "special event." This means that, for the duration of the lock down, New Zealand Amateurs may use the **ZM** prefix instead of the ZL prefix on their callsign. Please feel free to use these callsigns from today. We hope that the use of the ZM prefix will:

- Help to relieve the boredom for amateurs stuck at home over the lockdown period; and
- Increase the profile of New Zealand amateurs (and New Zealand in general) overseas.
