DX News

DX-World radio club stations

DX-World Radio Club was formed on September 18, 2019 with the principle aim of promoting DX-World – the world’s biggest and best FREE DX News Service for DXers and enthusiasts.

So far, the following stations and operators have been active as we continue to trial the use of each callsign.

- **G(S)5DX – Scotland – op: MM0NDX.**
- **G(X)5DX – England – op: currently G3PXT, previously G4PVM.**
- **G(C)5DX – Wales – op: **Get in touch****
- **G(T)5DX – Isle of Man – op: **Team activation 2021.****
- **G(P)5DX – Guernsey – op: **Team activation 2021.****
- **G(H)5DX – Jersey – op: GJ6WRI.**
- **G(N)5DX – Northern Ireland – op: **Get in touch****

Give a call to any of the active G(x)5DX callsigns on the bands and show your support for DX-World.

QSL manager for all UK G*5DX callsigns is David, EB7DX. LoTW and Club Log will be regularly uploaded.

If you stay in the UK, drop Col MM0NDX an email if you would like to have a pileup with one of the calls above.

VP8 licensing situation by Alan VK6CQ/VK0LD

Britain’s desire to maintain its claim over its slice of the Antarctic plus the South Shetlands, South Orkneys, South Georgia and the South Sandwich Islands is fast waning, it would seem.

All existing VP8 “lifetime” amateur radio licensees for these regions have recently been abruptly cancelled by the body responsible for issuing them (the Falkland Islands Government) and there are no longer provisions in place to issue new licenses for these regions as the VP8 prefix apparently now only applies to the Falkland Islands.

Therefore, anyone planning a future DXpedition to any of these five entities will now have to get a license from either Buenos Aires or Santiago instead. The reasoning behind this astonishing action remains unclear. The last known licensed operation was **VP8PJ** from the South Orkneys earlier this year.

“Dream Rig” Youth essay contest

It brings us great pleasure to announce the winners of the 1st Annual Youth “Dream Rig” Essay Contest.

We received over sixty essays from US licensed young amateurs from all over the world. The essays were unique in thought and very well-articulated. Extra points were given for proper grammar, punctuation and spelling. Most of the essays gave unique perspectives

on how to reach out and connect with the youth of today. We will be sharing those ideas in subsequent postings.

First Place winner, and recipient of the ICOM IC-7300 is Faith Hannah Lea, KD3Z. In addition to winning the IC-7300, Faith Hannah will also receive a vertical "flagpole" antenna from Greyline Performance Antennas. She will also receive a Deluxe Headset from Heil Sound and a Powerwerx switching power supply from Steve, N6SJ. Lastly, she will receive a QRP Morse Nano Morse Key-25-811P from Gigaparts.

Announced IOTA

THE NEWCOMERS

OCEANIA

OC-228 Granite Isl by VK5MAV: If you have not yet worked IOTA OC-228, a new chance appears. On August 22nd or 23rd, I will be on the island. What day – depends on the weather, it will be clear in a couple of days before and I'll let you know. Access to the island by the bridge is closed in case of strong winds, and to sit in the rain with all the hardware somehow does not attract me. Alas, again 100W from a battery, again GP antenna, 20m band only, CW only. I will move around 1404Z, depending on the situation on the air. Time is scheduled from around 0GMT until our twilight 7GMT. I will be on the internet all the time, email, watching DX Summit cluster, phone, Skype, Facebook, and will upload the log at the end. Hope to hear everyone who needs it

A60EMM Emirates Mars Mission

The United Arab Emirates has officially entered the global space exploration race. This came after His Highness Sheikh Khalifa bin Zayed al Nahyan, President of the UAE, issued a decree to establish the UAE Space Agency, and began working on sending the first Arab and Islamic probe to Mars, a project named "Hope Probe". This makes the UAE one of only nine countries working to explore Mars.

The probe will start its journey in 2020, and is scheduled to arrive to Mars by 2021, in celebration of the 50th anniversary of the union of the UAE. The planning, management and implementation of the probe project are implemented by an Emirati team, whose members depend on their skills and diligence to acquire all space exploration-related knowledge and applying it. The program is fully funded and supervised by the UAE Space Agency, while the probe is being developed by the Mohammed bin Rashid Space Centre (MBRSC), in collaboration with international partners.
