JX0X Jan Mayen DXpedition 2021

We would like to announce two new operators in the JX team: Erwann LB1QI and Allan EA3HSO!!

We're happy to have the two new members on board! At the same time we regret that Mats RM2D had to withdraw due to personal reasons. As we proceed we will soon expand the team to 6 operators which will then make the JX team complete. With 6 operators and 4 stations running this will give you even more QSOs!

We are also working hard on the vessel contract and are still negotiating the details. Needless to say, this contract is extremely important to us not only financially but also logistically and to outcome of the DXped.

YI/IU5HWS Iraq -update

Giorgio got back in touch with DX-World to say that he is having a lot of success operating. Meanwhile, he wanted to point out that about 3-4 months ago he applied for a radio license but never received any word from the Iraqi MoC. He will continue using YI/IU5HWS and hopes soon his license application is approved to dispel rumours of "fake activation".

A60EMM Emirates Mars Mission

The United Arab Emirates has officially entered the global space exploration race. This came after His Highness Sheikh Khalifa bin Zayed al Nahyan, President of the UAE, issued a decree to establish the UAE Space Agency, and began working on sending the first Arab and Islamic probe to Mars, a project named "Hope Probe". This makes the UAE one of only nine countries working to explore Mars.

The probe will start its journey in 2020, and is scheduled to arrive to Mars by 2021, in celebration of the 50th anniversary of the union of the UAE. The planning, management and implementation of the probe project are implemented by an Emirati team, whose members depend on their skills and diligence to acquire all space exploration-related knowledge and applying it. The program is fully funded and supervised by the UAE Space Agency, while the probe is being developed by the Mohammed bin Rashid Space Centre (MBRSC), in collaboration with international partners.
