RI0Q Bol'shoy Begichev AS-152 –update

All our Arctic expeditions are very expensive. All the time, before each expedition, we always come up with something new and special to make your support of us more interesting and attractive. In this expedition we want to introduce a special QSL called "fast". All "fast" QSLs will be sent out from the very first functioning post office on our way back. Most likely it will be in Khatanga settlement (UA0Q).

A60EMM Emirates Mars Mission

The United Arab Emirates has officially entered the global space exploration race. This came after His Highness Sheikh Khalifa bin Zayed al Nahyan, President of the UAE, issued a decree to establish the UAE Space Agency, and began working on sending the first Arab and Islamic probe to Mars, a project named "Hope Probe". This makes the UAE one of only nine countries working to explore Mars.

The probe will start its journey in 2020, and is scheduled to arrive to Mars by 2021, in celebration of the 50th anniversary of the union of the UAE. The planning, management and implementation of the probe project are implemented by an Emirati team, whose members depend on their skills and diligence to acquire all space exploration-related knowledge and applying it. The program is fully funded and supervised by the UAE Space Agency, while the probe is being developed by the Mohammed bin Rashid Space Centre (MBRSC), in collaboration with international partners.
