THE REMINDERS

DECEMBER YOTA MONTH

The entire month of December, several youngsters under the age of 26 will become active with YOTA as suffix in the callsign. The idea behind this is to show the amateur radio hobby to youth and to encourage youngsters to be active on the ham radiowaves. Usually you hear YOTA stations on air from our summer and subregional camps throughout the year. This season has been an exception. Due to the worldwide COVID-19 pandemic, nearly all our camps and events had to be cancelled. Therefore, nearly no possibilities were left to hear YOTA stations on the bands.

Hence, we as Team YOTA want to show the world that the youngsters still want and can be active on the bands during this difficult time. Help your local youngsters to get on the air throughout the December YOTA Month following your national health guidelines. Either you are a supporting elmer or under 26 years yourself, contact your society's youth coordinator to be active with your national YOTA callsign. If your society did not apply for one yet, feel free to encourage them to do so of course. It will be a pleasure to work a lot of new youngsters on the bands!
