DX News

Rotuma 3D2AG/P -Update by Antoine

I have been monitoring 160m on the 80m antenna and I can receive many stations on FT8 with good reports, from NA, JA and southern/eastern EU at my SR and SS. The generator noise is a bit less so am putting up today the 18m Spiderpole for the inverted-L and looking forward to try some 160m for a few days. GL to all and HNY.

DX-World DXpedition of the year 2020

The survey has been online for 7 days with over 1500 voters.

It was clear to see that a few hours after the survey went live, people who frequent various DX forums, DX clubs, friends of friends, DX message boards, social media platforms et al started to vote for DXpeditions which were mostly based on country choice rather than the main aim – to see which expedition could claim the accolade of 2020 DX-World DXpedition of the Year – regardless of demographics.

Keeping an eye on South Sandwich Island

Remember we recently **kept an eye on South Georgia** with regards massive iceberg A68a? Well, as you may know those islands missed out on a direct hit from the 'berg (although some grounding on the seabed nearby did happen). Eventually A68a started to break up and smaller icebergs became evident, each being given a new identifier such as A68e, A68d, A68f etc.

JIDXM awards 2020 –by Zorro JH1AT

Now the end of year is coming close, and looking back at 2020, we had many difficulties caused by Covid-19. Many of DXpeditions were cancelled, but there are also many individuals and teams that overcame all the difficulties and conducted DXpeditions. Japan International DX Meeting Committee, in cooperation with CQ Ham Radio Magazine, decided to give awards to the teams and individuals who made outstanding contribution to the world's DX committee. Please download and enlarge to see the deserving individuals.
