### **3D2AG/P Rotuma –update by Antoine 3D2AG**

Just to update that now all FT8 and CW logs for the 2019 to 2021 3D2AG/p DXpeditions are online on Club Log. If there are any missing QSOs that stations think are valid, please email me with details and I can check the logs. Especially on CW, QSB can play tricks with the ears. Currently I am awaiting a renewal of my LoTW certificate to further upload to LoTW, and this should be here soon.

### **5A0YL –update by Elham**

I apologize for the delay in sending QSL cards out lately. Because of the never ending conflict in Libya, restrictions because of COVID-19, no flights and post between 5A and most countries. Additionally, more than 20 hours daily without electricity makes life here really hard.

Despite all these circumstances, I will be on the air when there is electricity in my area. I am new into amateur radio and looking forward to learning more about the magic of our hobby. Thanks go to Abubaker, 5A1AL who introduced me into amateur radio, he spends a lot of time to teach me and help me get my license.

Looking forward to meeting you on the amateur radio bands; my favourite mode is SSB. Please be patient with me on the bands.
