3Y0J Bouvet Island 2022

3Y0J 2022 team consists of:

Adrian KO8SCA, Axel DL6KVA, Bill KO7SS, Dima RA9USU, Erwann LB1QI, Gjermund LB5GI, Ken LA7GIA, Laci HA0NAR, Mike AB5EB, Rune LA7THA, Sandro VE7NY, The twelfth operator will be determined later, there is a plan for that. Stay tuned!

The 3Y0J team are delighted to inform about our continued effort to activate Bouvet island. After cancellation of the previous attempt due to the ill-fated sale of the vessel Braveheart we decided to continue the effort and search for a suitable and affordable vessel. Today we announce that we have signed a contract with an expedition vessel with a proven track record and experienced polar crew that will take us to Bouvet in November 2022. The vessel is MARAMA and is fully booked for the 2021/2022 season. The cost is significantly reduced compared to our previous Braveheart charter. With the signing of the vessel contract we will start fundraising immediately. On this journey to Bouvet we have assembled a team of 12 operators and we plan to spend 20 days around Bouvet.

The QTH at Bouvetøya will be Cape Fie at the South East part of the island, the only feasible part where a DXpedition can safely setup the camp on rocky ground, we will not set camp on the glacier. We will have a wide area of 150 x 800 ft to setup the camp and the antenna farm.

Back in April 2020 we started our effort to activate Bouvetoya – a Norwegian DXCC in South Atlantic Ocean and also known as the world’s most remote island. In close co-operation with NPI we received the needed permits in September 2020 to activate Bouvetoya, which also included a helicopter permit. We also together with NPI researched and was provided photos that showed a beach landing was possible. In November 2020 we were approached by Intrepid and we joined our efforts. After the sale of Braveheart in June we informed Intrepid that we would continue our effort to activate Bouvetoya and search for a suitable and affordable vessel. Last week we were ready to launch the vessel news to the team members. As we sent out this information it was leaked to Intrepid group which caused Intrepid in a hurry to send out a press release the following day that they would go to Bouvet. The act of the team member came as a big surprise to us, the same did the announcement from Intrepid as they were informed we would continue the project.

As of today we still hold the only valid amateur radio team license specifically issued for the purpose of activating Bouvet (3Y0J). With the NPI permits, the license, the signed vessel contract and a new expedition vessel we’re ready to move forward. The team of 12 operators will fund much of the budget but we also need the global DX Community to support our mission and help us make this important activation of the #2 most wanted DXCC entity. It is only through this kind of support that we can achieve our mission of making 120,000 contacts or more from Bouvet in November 2022. Without support there will be no activation.

In closing, we especially wish to thank our many Foundations, Clubs and Individual donors. Without this kind of support, operations to the world's rarest entities would not be possible.

You can soon follow our plans from our website 3Y0J.NO (please note change of website to .no) and the [3Y0J Facebook group](#).

Thank you,

Ken Opskar LA7GIA, Co-Leader

Rune Oye LA7THA, Co-Leader

THE REMINDERS

USA North American QSO parties

With CQ WW's announcement that it will recognize Youth entrants, don't forget the NCJ's North American QSO Parties will also recognize Youth entries in the Single-Operator category. Beginning with this month's NAQP SSB (August 21-22) a Youth check box will be added on <https://3830scores.com/> and on the NAQP log upload app at <https://ncjweb.com/nagplogsubmit/>. Operators age 25 and under may "self-certify" when checking the box. Youth scores will be included with the regular Single-Op scores and in their own table in the results. This is a great way to encourage youth participation in contesting and we hope other contests will do so, as well.

Russian District Award August 21-22

<http://rdaward.org/indexeng.htm>

Our diploma program has been around for 20 years, and its main goal is to get cfm for QSO with all districts of Russia.

We have developed an automatic RDA district cfm specifically for fulfilling the requirements of the diploma program:

<https://mydx.eu>

This service makes the participation as easy as possible. You do not need to create an application and send it to the Diploma Manager – all you need to do is to send in your payment and your post address. You can get either one or several diplomas – it is up to you. For your convenience we have created special version of RDA dx-cluster where you can easily see those RDA-s that you don't have confirmed yet.

You also have a possibility to have a sound notification when your unconfirmed RDA is spotted. Go and check it out:
