## Time to enjoy radio!!!

Solar Flux = 118

Sunspot Count = 127

We haven't seen numbers like this for a very long time. New and old radio hams alike may well start to work stations they thought not possible in recent times. Get on air (any mode!) and see what juicy DX you can work in conjunction with the higher than normal solar figures!

## NCDXF: 2021 End of year message

Dear DXer:

While 2021 didn't bring DXpeditions to rare entities, several are planned for 2022.

NCDXF has funded 3Y0J, led by Ken Opskar, LA7GIA. After the Braveheart became unavailable, Ken picked up the team, found a new boat, and a new grant. We all wish Ken and team the best success for this #2 most wanted in November 2022. This should give many an early Christmas present next year!

NCDXF also funded Crozet (FT5/W), of the team F6CUK, and F6EXV. Thierry will sail to Crozet on a TAAF supply vessel, staying for 3 months. Thierry's only responsibility while there is Amateur radio operation. #3 on the most wanted.

We continued with support and infrastructure projects: [IARU Beacon project](#), and RiBs. We've also provided finance and support for the [Youth On The Air \(YOTA\)](#) program, [Dave Kalter Memorial Youth DX Adventure \(YDXA\)](#), WRTC 2023, and [Contest University](#). [CY0C](#) (Sable Island) funded in 2020, is now scheduled for 2022.

## 3Y0J, Bouvet 2022 –update

We're happy to inform about some news related to the upcoming Bouvet DXpedition. We have selected the Norwegian brand Arctic Lavvo who will supply us with their Venor Gamme tent. Arctic Lavvo will deliver custom made tents to the project that includes three tents for radio operation and sleeping. The manufacturer having its factory at latitude 70N is taking the extra step to ensure their high-quality products will sustain the Bouvet climate. The tent having been tested at JW Svalbard in extreme conditions up to 40 m/s will be improved further by adding extra guying levels and by strengthening the aluminium frame. We're confident selecting a Norwegian manufacturer with huge experience from this kind of climate is a wise decision.
