CY0S Sable Island -update

As announced previously, the 2022 Sable Island CY0S DXpedition has been formally approved for this October/November. As soon as the exact dates are determined by Parks Canada, we will release them to the DX community.

Parks Canada is extremely busy with maintenance projects which have priority. Environment Canada completely automated their Sable weather station in 2019 so they no longer have personnel on the island. <https://www.dx-world.net/cy0s-sable-island-dxpedition-2022/>

3D2RRR Rotuma -update

"The Team is ready to set sail from Fiji to Rotuma for about a 2-week activity as 3D2RRR. We are waiting now for a suitable weather window.

3D2EZ and 3D2SP are warming up working on CW and FT8 as SO3R (single operator 3 radios) while other team members are making progress with final preparations. The licence and permit have been issued, LoTW already received and set.

We will run 2 x CW, 1 SSB and 5 x FT8.

We will operate WSJT-X ver. 2.5 as FOX only. This will be an experimental FT8 activity. We will operate 2 radios on same band (ex. 14.074 and 14.080 or 18.100 and 18.095 or 7.074 and 7.056 as FOX only. You can see multiple streams sent on both freq, same band at the same time, but you will need to operate F&H to be able to get the answer.

Other software users will need to adjust to F&H if they want to call us and get replied."
