Z21RU Zimbabwe -update

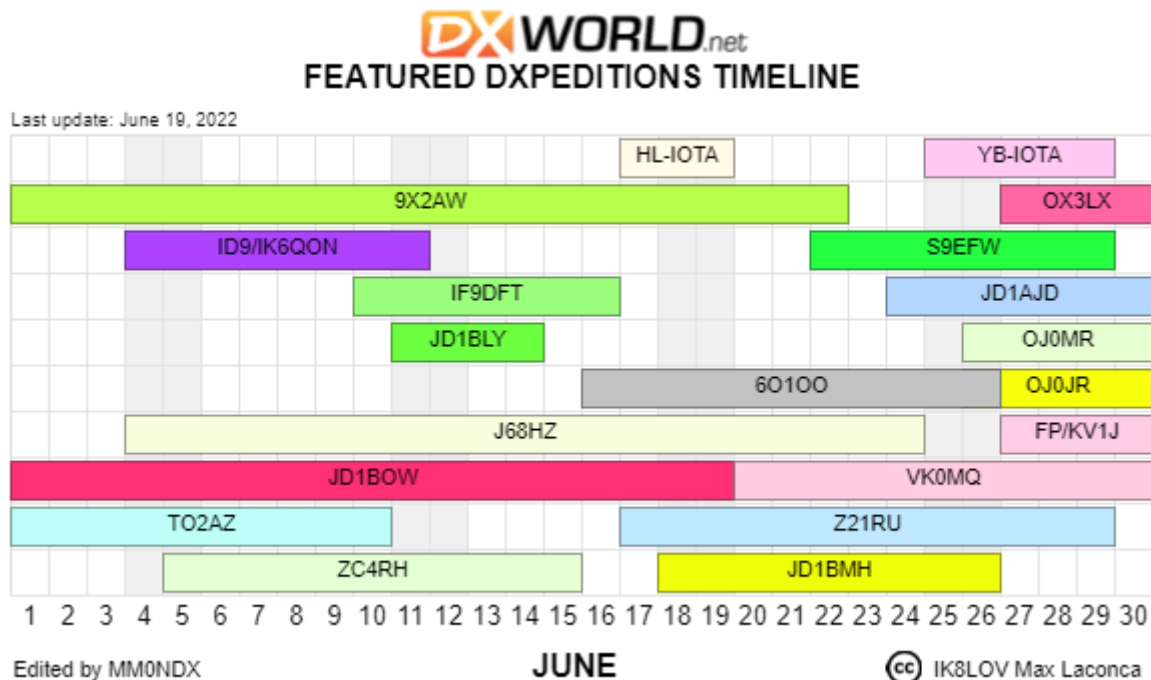

Team continue activity. It's quite cool in Harare (generally 5-10C). Still they have issues with power often switching off. They use a 5Kw generator when that happens. So far they have made no QSOs on 160 or 6m – they hope to raise the 6m antenna much higher tomorrow (June 22). They say propagation is very good to Europe, but not so with NA. SSB activities probably start tomorrow along with QO-100.

Future ZL9 DXpeditions by John VK3YP

Future DXpeditions to ZL9 will not be possible under (as of 2016) Conservation Management Strategy for NZ Sub Antarctic islands. We (ZL9HR) submitted a detailed application for a permit to conduct a DXpedition to ZL9 in Dec 2022 or 2023.

Even though a permit was issued in 2012 for ZL9HR – under the new NZ Sub-Antarctic Islands 2016 conservation management strategy, radio operations involving erection of structures (antennas) / staying on the island to operate – these activities are no longer permitted. In summary only research activities and day trip tourist activities are permitted.
